

# ANUJ JHA

1st year Student, SRM

Schooling: Tarapore School, Jamshedpur

## printf("About")

I am a college student in the learning process. I try to learn every skill involving technical as well as the one involving physical and mental skills. I am trying to expand my knowledge in web development, machine learning, and os development to find which one is more suitable for me. I also take interest in acting, linear video editing and in Ramp Walk events.

## printf("Skills");

I am a front end developer. I am also decent in problem solving with C and Java. I have recently started to learn App Development with Kotlin.

My projects:

- Sean Halpin's one page website
- Tindog Website - Bootstrap (Learnings from Udemy)
- Drumkit website - javascript(DOM)
- Personal Minimalist website.
- App dev (Beginner)- Simple Age in minutes Calculator

All projects are available in my Github
